Prompt Service Competitive Pricing Accurate Results

A history of quality land surveying since 1986....

Suncoast Land Surveying has achieved a solid reputation for providing conscientious and reliable service to our clients for nearly three decades.

All surveys are supervised by Suncoast's own Professional Land Surveyors. This provides our clients with personal and reliable service and a focus on giving our clients an accurate survey *the first time* and meeting your required deadlines.

Our office is conveniently located in Oldsmar, Florida and owned by life long Pinellas County residents, Kelly and Marie McClung. This centralized location allows quick service to the surrounding Tampa Bay counties...Pinellas, Hillsborough and Pasco.

We guarantee our quotes....

The larger and more complex the property is, the more time it will take to complete the survey. We stand by our quoted price so it is imperative that we gather as much information about the property to be surveyed prior to starting the work.

Starting residential lot survey prices:

Pinellas - \$325.00

Pasco - \$350.00

Hillsborough - \$350.00

Elevation prices with survey - \$125.00

These prices reflect typical sized lots under one acre. Pricing will vary on larger properties and will need price approval prior to the order.

For more information please contact Marie McClung, President – 813-854-1342
