

SURVEYING

Suncoast Land Surveying, Inc. (SLS) was formed in 1986 by Mr. Kelly McClung, PLS. Mr. McClung received his Bachelors degree in Land Surveying from the University of Florida and earned his professional surveyor's license in 1983. Original SLS partners included two, locally owned engineering firms which provided SLS with boundary and topographic surveys for private and municipal clients.

Today, SLS is privately owned by Kelly and Marie McClung and employ many highly qualified and professional surveyors and technicians that will perform any type of land surveying service you may need.

The office is located in Oldsmar, Florida. This centralized location allows service to all surrounding Tampa Bay counties including, but not limited to; Hillsborough, Pasco, Hernando, Pinellas and Polk.

Suncoast Land Surveying, Inc.

EXPERIENCE

A History Of Quality Land Surveying Since 1986...

Suncoast Land Surveying has been providing complete surveying and mapping services to a wide range of clients.

We have achieved a solid reputation for providing conscientious and reliable service to municipalities, and private industries throughout the west coast of Florida.

Our firm is large enough to effectively handle highly complex projects, yet small enough to deliver personalized service.

"Our goal is to provide our customers with the latest and most up to date professional services with high quality, affordable costs and on time delivery."

Mr. Kelly McClung, CEO
